At lunch our students will enjoy a variety of fresh California-grown table grapes from HMC Farms.

The last harvest in the grape vineyards are typically sweeter and crisper than the others because they are at the peak of ripeness.

The warm days and cool nights have been ideal conditions for table grape maturity this year. The dew point and humidity have also been optimal for this time of year, with zero foggy days to date.

PLEASE NOTE: Due to major supply chain disruptions many food entrées or sides may be substituted due to unplanned shortages or limited availability.
